Maltese Militia Shows Support for our Troops

The Maltese Militia has joined forces with *Cell Phone for Soldiers* as a way to support our troops abroad. We will be collecting any old cell phones at all the events we attend from now on. The phones will be given to the *Cell Phone for Soldiers* group who will turn them into minutes that the troops can use to call home.

If you have an old cell phone that you would like to donate, come see us at any of the events we attend. If you aren't going to cross paths with the Militia, you can get info on a local donation location by visiting the online spot for the *Cell Phone for Soldiers*, you can get lost of good info their. <http://www.cellphonesforsoldiers.com>

September a Slow Month for the Militia

Overall the month of September was the calm before the storm. We only had a single event scheduled for this month, Castle Conquest at EMR, so many of the team took a little time off of paintball to get ready for a very busy October. With several events in October with major games at three different fields, it will be a fun month.

The events include the Premier event at our home field, Red Dawn 6. After that we head to a new field for the Militia, Fox 4 Paintball for the Apocalypse Scenario game, and we end the month heading to our favorite Big Game field in CT, Strategy Plus.

You can get the complete details on these events in next months Splatter. We hope to have some photo's to include.

New Event Added to the Schedule

Several new dates and events have been added to the Militia Calendar. In November we will head to another new field for the team, Friendly Fire Paintball. We will be attending the Blood Bath Scenario game written by Steel Reserves Paintball Team. They have a really good rep for scenarios and we can't wait to try this one out.

We have also set up some dates for our winter paintball at Hornetsnest Paintball. November 12 and December 14 are the first two dates of the winter season that we will go to Hornetsnest. These will be to enjoy the fields, indoors in poor weather, outdoors in good weather. Bob always makes us feel very welcome and we hope try out the new MOUT houses they built in the indoor field.

Captains Corner

As the leader of our little rag tag group it is always a great pleasure to let folks know that I really appreciate all that the team members do for the team. Even with major injuries, family commitments, and extremely hot weather, every team member made it to the Queen Anne's Revenge game. Thanks for your dedication to helping make that a successful event for not only us, but also all who played.

We will be having a team meeting sometime in the next couple of months, we need to look at next years schedule and make some decision on where and what event we might want to add or subtract from our schedule. We also need to discuss some other team items.

Meet the Member – S.O.C.K.

S.O.C.K. is one of the founding members of the Maltese Militia. He has been playing paintball since the folks who formed the team started playing in 2003. S.O.C.K. is the youngest member of the team, but he plays with all the heart and soul of us “older” guys. When we need a burst of speed, or a quick maneuver to get an objective, we count on S.O.C.K. He is currently shooting a WGP Trilogy Tactical, but he has his eyes on a VF Tactical that he hopes to get soon. His other gear is a Hammerhead Barrel System, a RAP 4 Vest; he also has a Camelbak Hydration system and a Hi-Viz Sight. S.O.C.K. Stands for Son of Coolkid and he is just that. He is also the stepson of Grumpy. Ahhh, paintball a game the whole family can play.

Castle Conquest XXIV – EMR Paintball

We will make our annual fall pilgrimage to EMR paintball for the fall version of Pure Paintball Insanity. We have a group of 10 players headed down and we are sure it will be a great time. Watch for full coverage in the November Issue, as the game is September 29.

The Maltese Militia Mind Set

What is it that makes our team different? We tend to play a laidback, fun based style of paintball. That doesn't mean that we do not play aggressively or play to win, we just always remember that this is a game for fun and if stop having fun, why play. Our team charter best states it:

As a member of the Maltese Militia, my fundamental duty is to support paintball and the team through ethical, professional and legal play. I am to exceed all others in my playing ethics and generosity.

I will foster new and younger players to help them mature and grow into players that are worthy of the team. I will support other members of the team with their paintball endeavors and efforts.

I will be exemplary in obeying the rules of the game. I will never act officiously or permit personal feelings, prejudices, animosities or friendships to influence any decision I make.

I recognize that my membership in the Maltese Militia is a symbol of everything that is right in paintball, and I am to constantly strive for those standards.

I play fair and will not condone any type of cheating; I will always obey any call made by a referee; if I disagree with the ref, I will follow the proper procedure to facilitate a safe and appropriate outcome.

As a member I will never indulge in Overshooting, Bonus Balling, and any other unsafe or unsportsmen-like behavior.

Thanks to our sponsors!

These companies have been very helpful to the Maltese Militia. Please keep them in mind when doing business!
