## Coolkid Wins Prize

Coolkid has won a free entry into any Viper game for 2008. A few months ago he donated to a Midwestern Paintball Team that was looking for support for the Walk for Cancer. Anyone who donated was put into a drawing for the Viper entry and Coolkid won. He still has not decided which event to attend, but he is leaning towards the Viper game in August at EMR Paintball.

**Don't forget that we collect old cell phones for Cell Phones for Soldiers at all of our events!**

## Airsports to Hold New Event

On April 6<sup>th</sup>, Airsports Paintball will be holding a brand new scenario event that will rival the biggest events ever at the field. Chris from Assassinz Creed has put together an amazing scenario called *Rise of the Machines*. It will include many new ideas and props into the scenario games at Airsports. If you can make it, this will be a signature event.

## Castle Conquest XXV

It is looking like a large group of us will be heading down to defend the castle. The team has joined the defenders and hopes to make it 3 in a row for the defenders winning the event. We will be meeting at the McDonalds at the end of 291 on April 25<sup>th</sup> at 930am and leave for the field no later than 10am. This should be a great event and the team is looking forward to playing at EMR once again. It has been said by many players that this is one event that every paintballer should attend at least once in their lifetime.

## Gear and Equipment Update from Grumpy

Our quartermaster, Grumpy, has been very busy these past couple of weeks. She has made sure that the orders have been placed for the equipment that our players need for the 2008 season. Orders have gone in and the supplies are starting to roll in. Watch for emails from Grumpy with your totals very shortly.

One a sad note, the gentleman who makes the patches for our vest has suffered a house fire. While he and his supplies are OK, he will be down for a couple of weeks as far as manufacturing patches goes. We wish him well and will get the back patches just as soon as he is back up and running.

Finally, Grumpy had worked with Eye-2-Eye Imaging on a team flag. You can see the prototype to the left. Eye-2-Eye is also working on a flag that will show off the Sponsors. This will eliminate the issue with changing sponsors and the jersey sleeves. After this the Jerseys will not have any sponsors on the sleeves, the web address will be on both sides on any new orders that are placed.

## Notes from the Captain

Here are a couple of things from your fearless leader. I have been in contact with Hammerhead and they are backordered on the new MoFo barrels. If we can get 5 or more ordered, we could get a discount on these brand new barrels once they are back in stock.

A huge thank you goes out to Happy Reaper; she has offered to proofread the press releases etc that we are sending out. She has done a great job along those lines and is helping to make our team look more professional. We could not have the press exposure we get without her help.
